QUE:3 Read the following paragraph carefully and answer the questions:

In the modern world, smartphones have become an important part of daily life. People use them not only for communication but also for education, work, entertainment, and social interaction. Students attend online classes, download study materials, and communicate with teachers through smartphones. Many educational apps have made learning easier and more accessible. Smartphones are also useful in professional life. People use them to check emails, attend online meetings, and manage their work. During emergencies, smartphones help people contact emergency services and stay connected with family and friends.

However, excessive use of smartphones can cause problems. Too much time on social media and games affects physical and mental health. Problems like eye strain, poor sleep, stress, and weak concentration are common. Therefore, smartphones should be used wisely and in a balanced way. When used properly, they can improve learning, communication, and quality of life.

05

Questions:
